## Medical Assistance Programs for Immigrants in Various States

Federally funded Medicaid and CHIP (Children’s Health Insurance Program) is available to otherwise eligible “qualified” immigrants who entered the U.S. before August 22, 1996, and those who have held a “qualified” status for five years or longer. Refugees and other “humanitarian” immigrants, veterans, active-duty military and their spouses and children, and certain other immigrants can get Medicaid or CHIP without a five-year waiting period. See NILC’s Table on [Immigrant Eligibility for Federal Programs](#).

This table describes state policies for providing health coverage to *additional* groups of immigrants, under federal options to cover lawfully residing children and pregnant persons, regardless of their date of entry into the U.S., or to provide prenatal care regardless of the pregnant person’s immigration status, using CHIP funds. It also describes immigrant coverage under programs using exclusively state funds.\*

The information in this table is subject to change. Please check with your state or local health care agency or legal assistance office regarding the most current rules. ## Key Terms Used in This Table

**“Qualified” immigrants** – are: (1) lawful permanent residents (LPRs); (2) refugees, asylees, persons granted withholding of deportation/removal, conditional entry (in effect prior to Apr. 1, 1980), or paroled into the U.S. for at least one year; (3) Cuban/Haitian entrants (as defined in 45 C.F.R. §401.2); (4) battered spouses and children with a pending or approved (a) self-petition for an immigrant visa, or (b) immigrant visa filed for a spouse or child by a U.S. citizen or LPR, or (c) application for cancellation of removal/suspension of deportation, whose need for benefits has a substantial connection to the battery or cruelty (parent/child of such battered child/spouse is also “qualified”); (5) survivors of trafficking and their derivative beneficiaries who have obtained a T visa or whose application for a T visa sets forth a *prima facie* case. (A broader group of trafficking survivors who are certified by or receive an eligibility letter from the Office of Refugee Resettlement are eligible for benefits funded or administered by federal agencies, without regard to their immigration status.); and (6) Citizens of Micronesia, Marshall Islands, and Palau who reside in the U.S. pursuant to a Compact of Free Association (COFA). Iraqi and Afghan special immigrant visa holders (SIV) are eligible for federal benefits to the same extent as refugees. Other Afghans who were granted parole between July 31, 2021, and September 30, 2023 -- and their spouses and children, and parents/guardians of unaccompanied children granted parole after September 30, 2022 – also are eligible for federal benefits to the same extent as refugees until the end of their parole term. Ukrainians paroled into the U.S. between February 24, 2022, and September 30, 2024 – and their spouses and children, and parents, guardians or primary caregivers of unaccompanied children paroled into the U.S. after September 30, 2023 – are eligible for federal benefits to the same extent as refugees, until the end of their parole term.

**“PRUCOL” or permanently residing in the U.S. under color of law** – is not an immigration status, but a benefit eligibility category. The term generally means that immigration authorities are aware of a person’s presence but have no plans to deport/remove the person from the country. It is interpreted differently, depending on the benefit program and jurisdiction.

**Lawfully residing** – means the person is lawfully present in the U.S. and meets the Medicaid state residency requirement. Lawfully present immigrants include “qualified” immigrants and individuals: paroled into the U.S. for less than a year; with a valid nonimmigrant status (e.g., survivors of serious crimes cooperating with law enforcement in prosecuting the perpetrators); granted withholding of removal under the Convention Against Torture, temporary protected status (TPS), deferred enforced departure (DED), deferred action (except for Deferred Action for Childhood Arrivals); family unity, or temporary resident status; with approved visa petition who have filed an application to adjust to lawful permanent residence; granted employment authorization based on application for asylum or withholding of removal (or, if under 14, application pending for over 180 days), TPS, registry, legalization under IRCA (1986 law), adjustment under LIFE Act, suspension of deportation/cancellation of removal, or based on an order of supervision; and children or youth who have applied for classification as a Special Immigrant Juvenile.

**FPL** – “federal poverty level,” as determined by the U.S. Dept. of Health and Human Services’ poverty guidelines (the guidelines for 2025 are available at <https://aspe.hhs.gov/topics/poverty-economic-mobility/poverty-guidelines>).
